CONDUCTING THE SURVEY

Office of the Mayor

Dear Fellow Resident,

The City of Brecksville is updating the 2016 Master Plan. We believe that public input is very important to ensure that the Master Plan best reflects the needs and values of residents. In order to gather public thoughts, we have asked the Cuyahoga County Planning Commission to develop an evaluation of resident opinions and experiences to: 1) ask you to share your opinions and suggestions about the future of our City.

This survey is being distributed to a sample of 1,488 Brecksville households. Your opinion is important and we appreciate your participation. An optional comment section is included to share additional feedback, if you wish. We ask only for your opinion. If you do not wish to answer a particular question, please rate it as "I don’t know" or "I don’t want to answer." We encourage you to complete as much of the survey as possible.

The Cuyahoga County Planning Commission will review, analyze, and provide a final presentation and written results report to the City. The results will inform the development of future policy and the City’s Master Plan. County Planning will be performing different Master Plan surveys in the future, so your participation is important.

We sincerely value your opinion and appreciate your participation in filling out this survey. This completed, it can be returned to the Cuyahoga County Planning Commission by returning the survey no later than May 29, 2018. If you have any questions regarding the survey, please contact the Cuyahoga County Planning Commission at 216-465-5700 or brewer@countyplanning.com.

I want to thank you in advance for assisting in the City’s very important and exciting project. The survey results and information of this survey will be the thoughtful development of Brecksville.

Sincerely,

RESIDENT SURVEY
MAJOR THEMES
MAJOR THEMES

- Most respondents choose to live in the City for its safety, quality of the school system, and proximity to highways for easy commuting.

- Overwhelmingly, the Brecksville Reservation and the Cuyahoga Valley National Park stand out as key amenities that the community recognizes for their outstanding quality and importance to the region.

- If residents would ever consider moving from the City, lower taxes was the most selected item they would look for in another community, but they would also consider moving for a smaller house or being able to walk more places locally.
MAJOR THEMES

- The majority of respondents feel the City should focus on better sidewalk connectivity and most would likely walk or bike more within the community if adequate facilities were provided.

- Most respondents want the City to focus on filling vacant storefronts with local stores, and any new development that happens should be environmentally sustainable and match the scale and design of existing structures.

- Residents desire to see a mix of uses along Brecksville Road, at the VA site, and along Miller Road as these areas develop.

- Nearly all respondents are extraordinarily happy with the quality of life and quality of services offered within the community and would recommend others live in the City as well.
